

WHAT IS On-MITT?

On-MITT or Online Multiple Intelligence Teaching Tools is a rich teaching tools collection that can facilitate the lecturers to design and develop their own teaching material without any ICT knowledge especially in programming. The theories of Multiple Intelligences (MI) are used in this study. The theory postulates that everybody has at least two or more intelligences. In an effort to achieve quality teaching and learning, it must be based on multiple approaches with a series of activities in online teaching tools. The teaching activities were limited to three intelligences only. These intelligences are Interpersonal, Visual-Spatial and Verbal-Linguistic intelligences.

WHO ARE THE USERS?

Admin

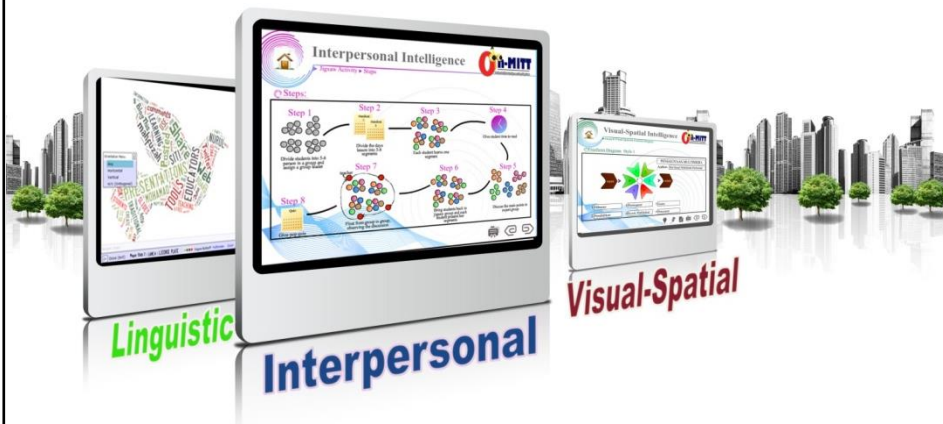

Educator

Student

- ✓ Register lecturers' and students id
- ✓ Fully access on On-MITT
- ✓ Monitor all activities includes database
- ✓ Lecturers can upload and download files
- ✓ Create and load existing files
- ✓ Observe student activities
- ✓ Login as a students to join discussion in jigsaw activity
- ✓ Can communicate with friends/members in class
- ✓ Not fully access on On-MITT

WHY USE On-MITT?

- Improved Teaching Skills
- Opportunities to Collaborate
- Reduce Preparation Time
- Increase Motivation in Teaching & Learning
- Based on MI Theory
